About Golden Rim Resources Limited

Golden Rim Resources Ltd (ASX: GMR) is an exploration company with a focus on gold. The Company is active in West Africa, with a pipeline of six gold projects covering around 4,100km² in the highly prospective Birimian greenstone belts of Burkina Faso and Mali.

Golden Rim has recently made a significant, near-surface, high grade gold discovery at its Balogo Project in Burkina Faso. Drilling intercepts at Balogo are arguably some of the best gold intercepts obtained in West Africa in recent years.

The Company is about to embark on a deeper diamond drilling program at Balogo to extend the gold mineralisation at depth and it aims to calculate a JORC resource towards the end of 2012.

With continued success at Balogo and at its other projects in West Africa, Golden Rim is poised to deliver significant growth and value to shareholders.
